FLOWER AND FOLIAGE IDENTIFICATION

Description: The student will be required to identify, by scientific name (genus and species) and common name, a group of 50 cut flowers, foliage, and ornamentals. The plants will be photos of live samples and will be selected from the master list of plants posted to the NCLC website prior to the event.

Time: 1 hour

JUDGING CRITERIA

Points: 100 possible points per individual

Each plant will be worth a maximum of two points:

.5 point for correct spelling
.5 point for genus
.5 point for species (and cultivar, if applicable)
.5 point for common name

Students are encouraged to bring the following materials to the event: Two sharpened pencils with erasers, blank scratch paper. The test will be taken in the online platform.

Sponsor is required to supply the following materials for the event:

- Photos of specimens for identification (selected from the master list provided by NALP), and other test materials (questions, explanations, etc.) in online platform
- Sufficient number of judges
- Final solution ready for scoring the students’ solutions
- Any other items deemed necessary for this event
