INTERIOR PLANT IDENTIFICATION

**Description:** The student will be required to identify, by scientific name (genus and species) and common name, a group of 50 indoor plants. The plants will be photos of live samples and will be selected from the master list of plants posted to the [NCLC website](https://www.nclc.org) prior to the event.

**Time:** 1 hour

**JUDGING CRITERIA**

**Points:** 100 possible points per individual

Each plant will be worth a maximum of two points:

.5 point for correct spelling  
.5 point for genus  
.5 point for species (and cultivar, if applicable)  
.5 point for common name

**Students are encouraged to bring the following materials to the event:** Two sharpened pencils with erasers, blank scratch paper. The test will be taken in the online platform.

**Sponsor is required to supply the following materials for the event:**
- Specimens for identification (selected from the master list provided by NALP), and other test materials (questions, explanations, etc.) in online platform
- Sufficient number of judges
- Final solution ready for scoring the students’ solutions
- Any other items deemed necessary for this event
