

Brickman, left, honors Hunt's 50 years of service to Brickman

Bruce Hunt

I began my landscape career as a Landscape Architect for BrightView (formerly The Brickman Group) as the 4th full time employee having graduated from Michigan State University in 1961. Held various positions with Brickman from designer to General Manager and retired after 51 years as a Senior VP in 2012.

Joined NALP (previously ALCA and PLANET) in the early 70's and served as chairman of various committees including education, finance, strategic planning and facilitated the first long range plan for the establishment of the former AEF, now NALP Foundation. Served on the ALCA board as a director, Secretary, Treasurer, VP and President in 1988.

Recognizing the opportunity to help young students in the landscape industry finance their education in the horticultural curriculum, became a founding Ambassador to the Foundation establishing the Hunt Family Scholarship Fund. Served on the search committee qualifying and selecting schools who were applying for accreditation as well as a judge for in the selection of deserving students to receive scholarships.
