

The ASIC Ivy Munion Langendorff Memorial Scholarship

Ivy Munion, Past President of the American Society of Irrigation Consultants, passed away in 2016 after losing a long battle with cancer. Ivy was passionately involved throughout her career with many groups and individuals within the Green Industry by serving on the boards of the National California Turf and Landscape Council, ASIC National, and the Northern California Chapter of ASIC. Ivy continually participated in educational programs offered by local municipalities, water agencies, colleges, and organizations including the American Society of Landscape Architects, the California Landscape Contractors Association, and home owner's association management companies. She served on the task force for the State of California's Model Water Efficient Landscape Ordinance

and helped develop and coordinate an educational seminar for the State of California. Ivy also helped develop the Northern California ASIC Scholarship program.

ASIC created the Ivy Munion Langendorff Irrigation Scholarship to commemorate Ivy's service to all of her friends in irrigation and her passion for mentoring and helping others share her love for irrigation and water conservation. It was her personal ambition to encourage future generations to get involved in the irrigation industry.
