

The Landscape Partners and David Minor Scholarship

David Minor is the CEO of The Landscape Partners and has been involved in the landscape industry for over 30 years. He is a past president of the Associated Landscape Contractors of America and has been recognized as the National Landscape Professional of the Year by *Landscape and Irrigation Magazine*. He's also a past winner of the Entrepreneur of Distinction award for Tarrant County. David was the Founding Director of the nationally recognized Neeley Entrepreneurship Center at Texas Christian University (TCU) and was named one of the Top 10 entrepreneurship center directors in the country by *Entrepreneur Magazine*. He now holds the title Founder Emeritus for The Neeley Entrepreneurship Center at TCU.

The Landscape Partners was founded in the fall of 2003 by longtime landscape professionals with a combined 75 years of landscape services experience. ultimate goal of the company from

inception was simple: ***Through maintaining beautiful landscapes and incorporating*** philanthropy into our core mission, we want to leave the world just a little better than we found it. The Landscape Partners name was chosen because it described how we dreamed of doing business. We wanted to have a true partnership with our customers, and a partnership in the communities in which we do business. The company has already been recognized numerous times nationally for the quality of work that we provide. In addition, we have been named a *Dallas 100* company, an award that recognizes the fastest growing companies in the DFW area. We believe this recognition and growth is a testimonial to the fact that we do indeed treat our customers as partners. Through our [***TLP Gives Back***](#) program the partnership concept continues in the communities we serve as we will donate a portion of our profits each year to over 195 health and human services organizations in the Dallas, Fort Worth and Oklahoma City to help those less fortunate.
