

Take Stock in a Student Scholarship

The *Take Stock in a Student* fund provided an opportunity for individuals and companies to donate to a scholarship fund that fosters the success of students dedicated to the growth of the lawn and landscape industry. This one-time campaign provided an annual scholarship of \$2000 to a deserving student. Each year at the National Collegiate Landscape Competition, a scholarship is presented at the Scholarship Reception. Without the generosity the following donors, this would not have been possible.

A special "thank you" to the following contributors:
