“In our minds, employees who make the effort to become certified are also making the statement that they are serious about their careers and about being able to perform at the highest level for our customers.”

—Bill Leidecker, Landscape Industry Certified, Five Seasons Landscape Management

Since 1993, more than 14,000 professionals have earned an NALP certification credential.

Get Certified.
1 CHOOSE & REGISTER
Select the Landscape Industry Certified designation that best meets your needs and job responsibilities:
- **Business Manager (CLP)** – designed for exterior or interior landscape contractor business owners or managers, or those on the management fast-track.
- **Technician-Exterior (CLT-E)** – designed for exterior technicians in softscape or hardscape installation, turf or ornamental maintenance, or irrigation.
- **Interior Technician (CLT-I)** – designed for interscape technicians.
- **Horticultural Technician (COLP)** – designed for industry professionals looking to expand or reinforce their knowledge of landscape plant life.
- **Lawn Care Manager (CTP)** – designed for lawn care professionals wanting a well-rounded foundation in warm- and cool-season turfgrass establishment, growth, maintenance, troubleshooting, and customer relations. Active military and veteran discount available!
- **Lawn Care Technician-National** – designed for lawn care practitioners looking to underscore their professionalism and commitment to best practices.
- **Lawn Care Technician (CTP-CSL)** – designed for lawn care professionals focusing on cool-season lawns.

2 STUDY
- All exams are self-study and materials are available for purchase at bit.ly/nalpbookstore
- A study guide is included with your print-based registration for the Lawn Care Manager course exam, which is administered by the University of Georgia. Now available online.
- Studying for the Technician-Exterior exam? Samples of 20+ online training videos and content from the books are available at landscapetechnician.net.
- In addition to your professional experience, don’t forget your Landscape Industry Certified peers are also a resource!

3 TEST
- You have up to 3 years after registering to test for most exams. The Lawn Care Manager program requires testing within one year of registration.
- When you feel confident in your body of knowledge, it’s time to take the test.
- Visit bit.ly/nalpcert to find your chosen designation and read the full details on testing options, including computer testing.
- The Technician-Exterior program involves a written and hands-on exam, administered by one of our state or provincial association licensees. Visit bit.ly/nalpextexam for details.

4 MAINTAIN
- Once you have passed your exam, look for your congratulatory packet which includes guidelines for maintaining your hard-earned certification designation.
- Every two years, you will need to recertify by reporting 24 CEUs, earned through continued education and professional development. Many NALP webinars, events and publications qualify for CEUs!
- Use the online toolkit to promote your status and show pride in your achievement.

Why Get Certified?
- Take pride in your work, knowing that you’ve proven mastery of the skills and knowledge used on the job.
- Gain respect and recognition from the industry, your clients, and your potential customers.
- Get found on the online Honor Wall and in the Landscape Professionals directory at loveyourlandscape.org and landscapeprofessionals.org.
